

*Designed for relaxing knitted and elastic woven fabrics. Reduces fabric tension before spreading or further processing.*

## Fabric Relaxing Machine CR-210

## Machine specifications

- Stepless electronic speed control
- Oscillating system for loose fabric folding

## Technical Data Fabric Relaxing Machine CR-210

|                          |                                                            |
|--------------------------|------------------------------------------------------------|
| Working width (Standard) | 2100 mm / 2300 mm                                          |
| Working speed            | 0 – 50 yds/min                                             |
| Power                    | 400 W                                                      |
| Relaxing length          | 500 mm                                                     |
| Voltage                  | 220 V                                                      |
| Machine dimensions       | 2100 (2680 × 800 × 1150) mm<br>2300 (2880 × 800 × 1150) mm |
